404 DEGREES BELOW
THE LIQUEFACTION OF HYDROGEN
AT LAST EFFECTED.

Science's Greatest Achievement—Professor
Olszewski Reaches the Goal of His Aspi-
ration in His Experiment in the Realm of
Frigidity.

Science has at last triumphed over
matter. Frigidity, which has previous-
ly defied all attempts to change its
characteristics, now succumbs to the
will of the mind's experiment. Pro-
fessor Olszewski, of Cracow, as early
as 1883 Professor Olszewski began the
experiment in the liquefaction and so-
lification of gases which has resulted
in the conversion of the last of the
constituents of the atmosphere into
liquid form. Oxygen, nitrogen and
many other gases, when submitted to
low temperatures in tubes by means of
liquid ethylene, boiling in vacuo, at a
temperature of 128 degrees below zero
Fahrenheit, were a readily liquefied,
even when submitted to a pressure of
10 to 20 atmospheres, and cooled down to
254 degrees below zero by means of li-
quid ethylene and liquid air boiling in
vacuo. What the critical temperature
of the gas was could only be ascer-
tained, although recognized to be below
244 degrees below zero. In his suc-
cessful experiment Professor Olszewski
first lowered the temperature of
hydrogen, but it was not until a few
days ago that this lightest of all gases
passed from the gaseous to the liquid
state at the remarkably low tempera-
ture of 404 degrees below zero Fahr-
enheit.

A Wooden Railroad.
Work is about to begin on a railroad
in Florida, which is a curiosity of its
kind. Some time ago the citizens of
Avon Park and Haines City, Fla., be-
lieved that a trans-Atlantic route con-
necting them would be of great advan-
tage. The country is sandy and nearly
level. A company was formed, but the
people later in capital what they made
up in interest. It has been de-
cided to build the road with wooden
rails, which are large enough to be
laid so that they will be half embedded
in the sand, without other ballast.
They are to be held in position by
wooden pins two in a row in diameter
and sixteen inches long, with the
ends connected by plank cross-ties
placed underneath and held by pins.
Not a pound of metal will be used in
the construction of the track, although the
line will be forty miles long.

Metal Recovered From Smoke.
Some of the smokers in Omaha and
Denver have lately installed a device
for recovering the minerals that heretofore
have passed away in smoke and fumes.
It is a private not generally
known that the smoke from such plants
is laden with metals of value, notably
gold, silver and lead, but such is the
fact, and it has been the constant
fact of metalurgists for years past to
construct some practical and economical
method of condensing such material.
The new device consists of a horizontal
flue some 1500 ft. in length, ex-
tending a sufficient distance and con-
sideration of the heat of the gas of ap-
proximately 1400 degrees, in which the
flue are drawn the fumes by means of a
fan, the outer circumference of which
at full speed revolves with a velocity
of nearly two miles a minute. The
fumes thus under pressure are forced
into a spiral building, from which
there is no mouth of escape, except
through a filter of textile fabric, the
colored gases passing through into a
stack beyond, while the valuable soot
or smoke condensed on the inner or
lower side, from which it is collected
from time to time, compressed into
mounds and fed back again into fur-
naces, where the valuable metals are
extracted and separated. Not one par-
ticle of valuable fume can escape.
—New York Sun.

Use of Traction Engines.
In California not only is steam freight
hauled with traction engines largely dis-
tinct, but it is, according to the Min-
ing and Scientific Press, is decidedly in-
creasing. That paper publishes an in-
teresting description of a wagon train
drawn by a traction engine with a load
of 40 tons and capable of ascending a
grade of 20 feet to the mile with the re-
mark that the high-power traction en-
gines are not only extensively, but also
profitably employed in California in
this traffic. The train described is now
in use in hauling coal a distance of 20
miles over the desert in San Ildefonso
County in this State, from the
mines of the Crystal Fuel Company to
Danby, a point on the Atlantic & Pacific
Railroad, to be shipped to different
points. This route is somewhat sandy;
the train, however, makes the round
trip (20 miles) in one day and a half,
including loading and unloading. The
engine averages about 10 miles an
hour. That is a very trying place
to operate a train, owing to the loose
sand, to be controlled with the safety
of water for the engine, the water
being hauled in sufficient quantity
from one end of the road by the engine
to supply it for the round trip. How-
ever, the train is as smooth as those,
and makes it possible to market one of
the great resources of this State that
otherwise would lie dormant for want of
a way of getting it to a shipping point
on the railroad.

These engines are also extensively
used in California for hauling boxes to
the mills, and lumber to the market-
place. Some large firms own as many as
three and four each, and at a profit con-
siderably over that of employing
animals, which were formerly used by
them. The engine doing the work much
more satisfactorily. A firm in Men-
docino is cited as now using only two
horses, whereas two years ago it used
six, traction engines having now sup-
planted animal power. It is also as-
serted that lumber men run their en-
gines up grades of 800 feet per mile
in going after logs.

Gives the trees purity of tone, there
is nothing gained by planting them
closely together. They may be spaced
out, saving of space when the trees
are young, but there will arrive a time
when the trees will be affected by
crowding. The mode of planting in
distances, feeding over a large area,
and any restriction in space will pro-
hibit growth and lessen the supply of
fruit.

Happy Thoughts

He—"Why does Miss Middle's ne-
phew in singing 'My Sweetest'?"
Man in the Moon?" She—"Because
he can't come down and deny it."—Har-
per's Paper.

Olden—"The girls are not so attrac-
tive as they were when I was a young
man." Young—"Don't you mean
they are not so attracted?"—Cincin-
nati Tribune.

Undergrad Hummer (sipping his tal-
lar and his shoemaker sitting together in
a tavern).—"Dinner?" "A meat-
pie of credence, I do believe."—Dor-
chester.

"Blamed if I ain't a regular Trinity,"
muttered the man in the crowd after
being stopped on half a dozen times.
"Everybody gets on to my feet."—Bos-
ton Transcript.

Mrs. Gill—"Oh, dear! I've sung to
this baby for an hour and she hasn't
stopped crying yet." Mr. Gill—"Pro-
bably she has been waiting for you to
stop."—Boston Courier.

Abbot—"I have never been in Cin-
cinnati, but I have been through the town
a few times." Habitt—"I have been
in Chicago, but the town went through
me."—Indianapolis Journal.

Wearry Wiggins (handing dipper)—"You
look dry. Here's a drink of water."
Wayward Wiggins (waving the dipper
away)—"What's the use of spilling a
good thing like that?"—Chi-
cago Record.

Miss Willalson—"I don't like to
quite a sensation in my antique con-
fession at the way I have been." Miss
Marketmade—"Oh, decidedly! I've
body examined. How appropriate!"—
Boston Transcript.

Mr. Figg—"You know my boy,
that it hurts me worse than it does
you when I give you a whipping."
Tom—"Honest, now?" "Yes." "Just
give me another look now, will you,
paw?"—Cincinnati Tribune.

"She travels you pretty shabby."
"Yes. She's angry with me." "With
you?" "Oh, no, not with me." "How
do you know?" "Because I'm
the one she's venting her feelings on."
—Chicago Evening Post.

Johnny—"Maw, I should think it
would be a heap more careful as to eat-
ing before chickens than to eat 'em
before swine." His Mother—"Why, a
Johnny?" "Johnny—"Cause they eat
'em."—Chicago Tribune.

Rollingstone Romors—"Did you ever
hear about Raggy's financial difficul-
ty?" Tattered Tom—"No, not was it?"
Rollingstone Romors—"Some one's giv-
in a quarter, and he swallowed it."
—Philadelphia Record.

"And you say your father is interest-
ed in me?" said Mr. Stilate, a easily
pleased. "He seems so," she answered.
"He worried about your health." "My
health?" "Yes. He thinks you have
insomnia."—Washington Star.

Wearry Wiggins—"Geary Walker is
the luckiest fellow on the road." Tired
Traddles—"How's that?" Wearry Wig-
gins—"He's a gambler, and he does
all his walking in his sleep. But give
him all day to lose in."—Harper's Es-
say.

Mr. Nointentions (carelessly)—"Aw,
how would you like to marry a man
who had only five a week?" Miss Pense
(eagerly)—"Oh, George, this is so sud-
den, but I think we will marry along if
he lets us live with him."—Brooklyn
Eagle.

Mr. McSwart (getting ready for
church)—"Lobelia, what's the matter
with this necktie of mine? I can't find
any way to fasten the thing on." Mrs.
McSwart—"Oh, O! Put that down,
Billie! That's my new hat."—Chi-
cago Tribune.

Mary Jane—"Why do the men in the
middle of the diamond stand and
hold the ball so long and make faces
at the man with the bat?" Alice—"Can't
you see?" "Wants to make him
so mad he can't hit it."—Cleveland
Plain Dealer.

"That girl in front of us is very fond
of opera," said the young woman at
the theatre. "She must be," replied
the young man. From the side of her
hat you'd think she was afraid some-
one might get past her."—Washing-
ton Star.

"Doctor, I have an important physi-
cal question to ask you. When I
stand on my head the blood rushes into
my head. Now, when I stand on my
feet, why does it not rush into my
feet?" "Because your feet are not hol-
low."—New York World.

"This hasn't a sign of a clam in it,"
said the guest who had ordered clam
chowder. "It's a wonder, that's what
it is." "Excuse me, sir, replied the
waiter, who is too good for that busi-
ness, but we only undertake to serve
a chowder; not an aquarium."—Life.

At the table—"Do you know, Ama-
lia," asked the cheerful idiot, "why
the letter B is like the presentation of
a clear to a colored gentleman?" "The
water girl gave it up." "I will tell you,
Angelina," continued the cheerful idiot.
"It is because it makes the moose
smoke."—Indianapolis Journal.

Papa, soberly—"That was quite a
monstrously you had in the party one
evening." Grace, nettled—"Indeed,
that must depend upon one's under-
standing of the term 'monstrously.'"
Papa, thoughtfully—"Well, two heads
upon one pair of shoulders, for exam-
ple."—Boston Globe.

Plant a green crop, either of corn,
oats, peas or millet, to cut down the
weather when grass may be scarce. A
small plot of green food will be found
very convenient and will also be
providing a change of diet. It will also
be relied by all classes of stock. It
may be cut at any stage of growth re-
quired.

The Leading Grocer,
(Successor to Walmsley & Spafford.)

MILITIA

SEALED TENDERS (in duplicate) for the
supply of Hard and Soft Coal, Hard
and Soft Wood (rough, unseasoned),
for the use of the Militia, to be delivered
at the Militia Barracks, will be received up
to Friday, 15th June, 1895, tenders to be
marked on the left hand corner of each
envelope, "Tenders for Militia Coal and
Wood," as the case may be, and addressed
to the undersigned.
Tenders for coal and wood containing full
particulars may be obtained from the
Department at Ottawa and at the Office of
the Deputy Adjutant-General, viz., Genl.
John, Quebec, Halifax, N. S., John,
N. B., and Winnipeg, Man.
No tender will be received unless made
on a printed form furnished by the Department,
nor will any tender be considered if
the printed form is altered in any manner
whatever.
Each tender must be accompanied by an
accepted cheque on a Chartered Canadian
Bank for an amount equal to five per cent
of the total value of the articles tendered
for, which will be forfeited if the party
making the tender declines to sign a con-
tract when called upon to do so. If the
tender is not accepted, the cheque will be
returned.
The Department does not bind itself to
accept the lowest or any tender.

Daily Intelligence.

A MARVELOUS GROWTH

Made by the Northwest in

Three Years.

65,000 ADDED TO THE POPULATION

The Noble Cause Discussed in the House

Quebec and the Province

Chicagans Railway When the

French Navy Goes into

Operation

Ottawa, June 3.—When the representa-

tives of the Manitoba Government

were here during the winter, writing an

address in the provincial assembly on

the ground that it was warranted by

the facts, they submitted that the

population of Manitoba had increased

from 10,000 in 1881 to 75,000 in 1894.

These figures were accepted by the

Dominion Government as approximately

correct, and the pledge given that the

increased subsidy would be forthcoming.

Some weeks later, however, they

discovered that the figures were

erroneous, and that the actual

population of the province was

only 65,000. This discovery

induced the government to

retract its promise, and to

ask for "splits" at the

Restaurants and Bars.

CHARLTON CRITOR

Hon. N. C. Wallace So Describes Him in the House.

MR. BENNETT ALSO RUBS IT IN

Mr. Charlton Brought Out Other Ex-

pressions of Opinion by Seeking to

Explain His Visit to Washington

the Second Division of

the Senate.

Ottawa, June 5.—On a straight party

Mr. Bennett having made his motion to

the Government, Mr. Laurier asked

what legislation the Government pro-

posed to bring down this session, and

repeatedly what was his policy with

respect to the Hudson Bay Railway.

The leader of the House replied that

all the important ordinary legislation

was on the order paper. The Govern-

ment did not intend to bring down any

legislation with regard to the Hudson

Bay Railway. As to the Hudson Bay

Railway, he said that it was a matter

of the Government's policy, and he

was not in a position to say what

the Government's policy was.

Mr. Bennett then asked Mr. Laurier

whether the Government intended to

bring down any legislation with

regard to the Hudson Bay Railway.

Mr. Laurier replied that the Govern-

ment did not intend to bring down

any legislation with regard to the

Hudson Bay Railway.

PETERBORO MYSTERY.

EDITORIAL PRIVILEGES.

Would Free Trade reduce Taxation?

Did the Grit tariff—1874—make you rich?

Did the Grit tariff make the country rich? Do the people want it renewed?

The Hamilton Times, unable to furnish a reply to our statements regarding public expenditures in Great Britain and in Canada, simply begs the question, and repeats its original misrepresentation.

Does the Times assert that Great Britain has any expenditure analogous to our sub-sidies to provinces, care of Indians, government of the North-West, immigration and quarantine, railway subsidies and construction, maintenance and operation of railways and canals?

Can it deny that our expenditure upon public works, light houses and coast service, post office department and customs has, by the wide extent and small population of our country, long rendered vastly greater than that of the mother country for the same services?

The Times has asserted that Britain's "public works, post office, etc., etc." are more economically managed than those in Canada. Comparison is difficult if not impossible in connection with some of those services, but we challenge comparison wherever it can be fairly made.

Some Opposition papers are making an effort to defend Mr. Charlton's U.S. lumber tariff policy, but it is a feeble one. The facts are against them. The U.S. tariff bill provided that lumber and some other articles of forest production should be free; but in Canada put on an export duty on saw logs, or any of the raw materials out of which the enumerated articles were manufactured, then the particular article or articles affected should pay a U.S. customs duty, all the others remaining free. Mr. Charlton got the draft changed so that if Canada imposed an export duty on any one of the articles enumerated, then the whole lot should be liable to a U.S. duty. His memorial declared that it was necessary to have the law so fixed in the interest of Michigan. Such conduct can not be defended on the part of a Canadian member of Parliament than could be the taking of the places of silver by the lost apostles.

The Port Hope Guide, a Liberal paper, contains a letter from a Canadian in England. According to the writer: "With my friend, the parson, we called at some of the cottages in the village of Sudbury, and saw the women at pick planting straw and making bales. The prices paid are astonishingly small—a penny for a score of yards of planting and a half penny each for making bales, while the present prices—making it difficult for a woman to earn more than ninepence per day. This unfortunate state of affairs is caused by foreign competition—principally from Japan, the result of England's free trade policy." Eighteen cents a day, \$1.80 per week, is the rate of wages in this industry. Will free trade make you rich?

In Newfoundland the newspapers are having a time over the confederation vote. The St. John's Herald, which is a confederate ally, was accused by the Telegram of being a look backer. It intimated in return that the Telegram people were swindlers, defrauders and cowards. The Telegram refuted the assertions by calling the editor of the Herald a swindler and defrauder.

"Free trade" is a term which in England has a different meaning from what it has in this country. Hamilton Times.

Under "free trade" as the Halifax Mail, London, the foreign trade of the United Kingdom, in the course of fifteen years, increased by 12 per cent; while protection as we have it in Canada, our foreign trade during the same period increased by 92 per cent.

The Globe says the National Policy has nothing to do with the high price of wheat in Canada. Of course, of course, common sense is a contemporary. The National Policy was responsible for the low price of wheat and other farming products, also farming lands. When wheat

and wheat rose, the old N.P. had no grip and now it has the grip again. It is the product of the N.P. that has made the farmer the best off in the world. The fact that wheat is at its highest price in Canada than in any other country is a proof of the N.P. Even if there were no duties against Canadian grain the Yankee farmer would propose to export wheat to Canada. The N.P. rule should apply to the farmer of each country. But it doesn't. And that shows the N.P. is a failure. If wheat prices are cheaper in the United States than they are in Canada, and there is a duty on wheat, it is clear that the Canadian farmer is not protected. If wheat is cheaper in the United States than it is in Canada, and there is a duty on wheat, it shows that the National Policy has not done with it and that the Globe has a great deal.

Daily Intelligencer.

CITY AND DISTRICT.

Saturday at 10 o'clock. Sabes, Voetter, Kite, Hamilton, under the influence of alcohol, were taken to the hospital. The case was heard by Judge J. A. F. Smith.

All in quiet in police circles. City Council on Monday next. For additional local news see second page.

Meeting of the Executive Committee to-night. The work upon St. Andrew's church is progressing rapidly.

"Life is worth living" in such a temperate as that of today. Remember the moonlight excursion on the St. Lawrence river.

Captain Sweeney, U.S.A., San Diego, Cal., says: "Shiloh's Catnip Remedy is the first medicine I have found that does me any good." Price 50c. by Alex. Roy.

The cells were deserted last night, not even a group being heard. The progress of business in the County Council has been very slow.

The County Council will conclude the business of the session tomorrow morning. Gunners Jackson and Mackenzie deserted from a battery at Kingston on Tuesday night.

Don't you know that Hood's Sarsaparilla will overcome that tired feeling and give you renewed vigor and vitality. In the vicinity of Tweed yesterday there was a severe thunder storm, accompanied by a heavy downfall of rain.

One of the plate glass windows in Sinclair & Ostrom's store was broken this morning by the falling of a door in the wind. Shiloh's Cure, the great cough and croup cure, is in great demand. Pocket size cures twenty-five cents. Children love it. Sold by Alex. Roy.

The clear, cool air of last night and this morning would indicate a copious fall of rain not many miles from here. The Oranians are issuing an elaborate programme for their great demonstration to be held here on the 15th inst.

Farmers and gardeners say that hay and strawberries are being burnt up. Other crops are growing well, but rain is needed badly.

He will be heard from in this world. The author grants. He was moved the lawn each morning. The lawn was cut and the grass was mowed.

Karl's Clover Root will purify your blood and make your head clear as a bell. 25c. and 50c. Sold by Alex. Roy.

Excavation for the front at 20th and Main streets. The work is being done by the city. The work is being done by the city.

Powerful winds and other drastic purges should be strictly avoided, except in extreme cases. When an epidemic of cholera is raging, the best remedy is to keep the bowels open.

A healthy appetite, with perfect digestion and assimilation, may be secured by the use of Ayer's Pills. They cleanse the system and strengthen the whole alimentary canal and remove all obstructions to the natural flow of the blood.

We were to show a new piece of ground for sale by Mr. J. W. Dunlop. The student under Mr. J. W. Dunlop, who was a student under Mr. J. W. Dunlop, was a student under Mr. J. W. Dunlop.

THE LATE JOHN CANNERY.

THE REMAINS OF THE LATE JOHN CANNERY LAID AT REST.

An immense gathering at the funeral. Testimony to the Universal Regret at the sudden death of an estimable citizen.

Obsequies - Particulars as to the funeral.

The terribly sudden death of Mr. John Cannery, of Madoc, was a shock that few will forget, and on the occasion of his funeral, on the afternoon of Thursday, the 13th inst., the people gathered in thousands from far and near to tender the last tribute of respect to one of the ablest and most successful business men of the county.

At the residence of Mr. J. W. Dunlop, at 10 o'clock, on Saturday, the 10th inst., the remains of the late John Cannery were laid to rest in the cemetery at Madoc.

The funeral was held at 10 o'clock, on Saturday, the 10th inst., at the residence of Mr. J. W. Dunlop, at 10 o'clock.

THE LATE JOHN CANNERY.

THE REMAINS OF THE LATE JOHN CANNERY LAID AT REST.

An immense gathering at the funeral. Testimony to the Universal Regret at the sudden death of an estimable citizen.

Obsequies - Particulars as to the funeral.

The terribly sudden death of Mr. John Cannery, of Madoc, was a shock that few will forget, and on the occasion of his funeral, on the afternoon of Thursday, the 13th inst., the people gathered in thousands from far and near to tender the last tribute of respect to one of the ablest and most successful business men of the county.

At the residence of Mr. J. W. Dunlop, at 10 o'clock, on Saturday, the 10th inst., the remains of the late John Cannery were laid to rest in the cemetery at Madoc.

The funeral was held at 10 o'clock, on Saturday, the 10th inst., at the residence of Mr. J. W. Dunlop, at 10 o'clock.

The King Shirt

This new and novel garment is bound to be the universal shirt. You ask why? Because the most won't break or push up.

IT IS NO FLATTERY WHEN THE STUFF IS TOLD.

Louis Benmore

Started in business three years ago with the determination to keep only the best quality of goods.

It was rather expensive at first, throwing out all poor goods, instead of mixing them with the best and then disposing of them.

But this policy paid in the long run. He has had the reputation now of keeping the best and selling just what you order.

210 of our city's most particular housekeepers buy everything from him.

Scott's Sarsaparilla

I WAS SUBJECT to frequent attacks of nervousness that rendered me unable to study and to do any kind of work. I was also afflicted with a peculiar skin eruption, and my hair fell out. I was a weak and nervous man, and I was a weak and nervous man.

BUILDS UP

capable of any exertion and with an ever present and disquieting feeling of nervousness. I was a weak and nervous man, and I was a weak and nervous man.

WEAK WOMEN

with similar cases to mine, I used it, and from the first few doses began to get better, appetite returned, and I was able to do my work. I was a weak and nervous man, and I was a weak and nervous man.

W. H. HENDERSON, THE MURDERER.
MAY.

MIDDLE MARCH TRAGEDY!

HENDERSON AND WELTER PAY THE PENALTY OF THEIR AWFUL CRIME.

They Were Only Executed at St. Thomas. The Murderers Broke Down in their Cells and Moaned With Anguish on their Way to the Gallows. They Could not Partake of Breakfast, but Walked to the Gallows Their Despair in the Face of Death.

FEELING AGAINST WELTER.

Public Sympathy With Him Until He Made His Statement.

St. Thomas, June 17.—Walter Henderson, the public man who has heretofore been regarded as a hero, has been convicted of the murder of John Henderson, the son of the late John Henderson, who was a prominent citizen of this town.

It has come out at last—the smiling of the face of Henderson, who was a prominent citizen of this town.

According to the Winnipeg Free Press of Saturday "free trade as they have it in England is not practicable in Canada." Then comes the use of the Free Trade supporting Mr. Laurier in his declared policy of working for free trade as they have it in England, asks the Montreal Gazette. This is a business gap. People who expect to succeed work for something they feel they can attain. They do not cry for money.

GRIT ECONOMY.

In the five provinces—Ontario, Quebec, New Brunswick, Nova Scotia, and Manitoba—the aggregate annual output, says the Montreal Herald, has been valued at \$7,000,000 in 1892 to \$11,000,000 in 1894, while the debt of the provinces have gone up from \$10,982,000 in the former year to \$20,000,000 in the latter. Nova Scotia went to the Liberals with a debt of \$4,422,000. At the moment the provinces are involved the provinces under its control that the only means of meeting the annual requirements, short of a raid upon the Dominion treasury, which Mr. Laurier favors, is direct taxation. This expedient has been resorted to in Prince Edward Island. Every farmer there pays into the provincial treasury a stipulated tax levied upon his acreage. It has also been applied in Quebec. No company can open its office in that province and no man can pursue his business or professional career there, until he has subscribed his quota toward the liquidation of the enormous liability which the Liberals, in violation of the most sacred promise that they would commute, have rolled up. We can all judge by the performance of the provinces what degree of conservatism there is in the plagues of economy to day; we can strengthen the judgment thus formed by an examination of the proceedings in the provinces that have been, or are still, under Liberal rule. Nor are the provinces any more deserving of acceptance than the promise of economy. Sir Richard is one of the clean men. The courts never exposed his campaign in London, but in a recent case he did one thing that was not his electioneering to the last but cost him large sums of money, and that was "to buy for it." The tribunals, however, have investigated the bank transactions during that public money was used, to find that without interest from the bank, the money was used, and the money was used, and the money was used.

THE EXECUTION.

St. Thomas, June 18th.

John Henderson, and William D. Welter were hanged this morning for the murder of John Henderson, the son of the late John Henderson, who was a prominent citizen of this town.

THEY WISHED MOST HEAVILY

and wishing their hands. Henderson, they cried "Oh dear! Oh dear!"

At 6:30 breakfast was brought, but though temptingly prepared, neither of the condemned men had the stomach to eat a particle of any food, although they eagerly drank the morning coffee.

At 7:30 the doors were opened and the spectators and reporters were admitted.

At 8:00 all was in readiness and the procession started for the gallows.

THE DEATH OF THE CONDEMNED MEN WERE PROTRICED.

Henderson's strong and so full of anguish, that strong men who heard them shuddered.

When the procession appeared at the door

of the prison, Henderson and Welter

were the last to see the light.

They were then asked if they had any

thing to say. They replied in the negative, whereupon the black cap was drawn over their heads, Welter being

executed first.

Walter bade the clergyman and the others about him good-bye and stood firm

awaiting the end. Just before the drop

fell he said: "Have mercy and compassion."

Henderson was very nervous, while

the hangman was busy with him, and his

voice quaked while he said: "Have mercy, Oh Lord, have mercy."

He was then asked if he had any

thing to say. They replied in the negative, whereupon the black cap was drawn over their heads, Welter being

executed first.

thing to say. They replied in the negative, whereupon the black cap was drawn over their heads, Welter being

THEY WISHED MOST HEAVILY

and wishing their hands. Henderson, they cried "Oh dear! Oh dear!"

At 6:30 breakfast was brought, but though temptingly prepared, neither of the condemned men had the stomach to eat a particle of any food, although they eagerly drank the morning coffee.

At 7:30 the doors were opened and the spectators and reporters were admitted.

At 8:00 all was in readiness and the procession started for the gallows.

THE DEATH OF THE CONDEMNED MEN WERE PROTRICED.

Henderson's strong and so full of anguish, that strong men who heard them shuddered.

When the procession appeared at the door

of the prison, Henderson and Welter

were the last to see the light.

They were then asked if they had any

thing to say. They replied in the negative, whereupon the black cap was drawn over their heads, Welter being

executed first.

Walter bade the clergyman and the others about him good-bye and stood firm

awaiting the end. Just before the drop

Daily Intelligence.

Rheumatism Cured in a Day.
South American Rheumatism. Cure for rheumatism and neuralgia. Cures in 1 to 3 days. In action upon the system to remove all impurities. It removes all acids from the blood, and the disease instantly disappears. The cure does not depend upon the strength of the patient, but upon the strength of the medicine.

The strongest influence is always exerted at short notice.

HAEMORRHOIDS AND LIVER COMPLAINT.
Hemorrhoids, etc., are cured by Burdock Pills. The blood has been purified, and the liver is healthy.

Discomforts arise from our disease often from our own fault.

Know your own strength, and the strength of the medicine.

Carry your knife even between the paring and the apple.

HAYWARD'S PATENT, BALSAK CURE.
Cures, Colds, Catarrhs, Gonorrhea, and all the Throat and Lung Troubles.

The Throat and Lung Troubles are not cured, but the good man cures in a day.

Intemperance in eating is generally more serious than excess in drinking.

Moderate eating is the wise man's policy, but overeating is a fool's.

The chief pleasure in eating does not consist in eating, but in the pleasure of eating.

Schiffman's Asthma Cure.
Instantly relieves the most violent attacks of Asthma. Free expectation and immediate relief to the free trial price. Send for a free trial price. Dr. Schiffman's Asthma Cure.

Women with pale colorless faces, who feel weak and discouraged, will find both mental and bodily vigor by using Schiffman's Pills, which are made for the blood, nerves and complexion.

It is the chief cause of the divorce courts.

LAKESIDE WOMEN are variable aquatic, feeling at the nose, etc. Dr. Low's Worm Syrup.

"I was one of the greatest sufferers from Asthma. I tried every remedy, but nothing did me any good. I tried Schiffman's Asthma Cure, and in a few minutes found relief. I continued using it, and in a short time my cure was cured and feeling completely restored. I have used this wonderful medicine successfully for three years, and I feel as well as ever. In fact, it is our family medicine."

The true philosophy of life is to live, and then to sleep.

Be sure not to sleep. People who have used Dr. Thomas' Electric Oil get rid of pain, and that it is sure but not slow. A cough, even of long standing, is speedily controlled and cured by Dr. Thomas' Electric Oil.

Don't complain of the world; a man of the world is not a complainant.

Joseph Hanson, Perry, writes: "I was induced to try Dr. Thomas' Electric Oil by a friend of mine. I used it for four years, and I found it the best article I ever tried. It has been a great blessing to me."

You must go after success; it will not come to you.

Ease by day and repose by night are essential to the health of the human body. Dr. Thomas' Electric Oil to their relief.

A quantity of oil held in the palm of the hand is often enough to relieve the most excruciating pain.

Safe faces need no paint.

Honors of the world are easy to take, say in action and rest in easy. Be.

Faults are thick where love is thin.

It is worse than madness to neglect a cough or cold which, if easily subdued if taken in time becomes when left to itself the forerunner of consumption and premature death.

Inflammation, when it attacks the delicate tissue of the lungs and bronchial tubes, is a serious and perilous affluency; and does not delay, get a bottle of Black's Anti-Consumptive Syrup, the medicine that cures the fatal disease of the human body, and drives it from the system.

This medicine promotes a free and easy action, and subdues the cough, heals the inflamed membrane, and restores the lung influence in curing consumption, and other diseases of the throat and lungs. It cures with the least of their children, and themselves from much anxiety, trouble and expense. It then procures a bottle of Black's Anti-Consumptive Syrup, and whenever the lungs take cold, has enough of the disease, give the Syrup according to directions.

Too many people are in the habit of using the medicine of others instead of their own.

The proprietors of Parmentier's Pills are constantly receiving letters similar to the following, which explain itself. Mr. John A. Hearn, Waterloo, Ont., writes: "I never saw any medicine so effective as Parmentier's Pills for Dyspepsia, or Liver and Kidney Complaints. The relief experienced by using them was wonderful. As a safe and reliable medicine, Parmentier's Pills can be given in all cases requiring a cathartic."

Two wrongs do not make a right, but they often produce about the same effect.

No family living in a bilious country should be without Parmentier's Vegetable Pills. A few are taken now and then will keep the liver active, cleanse the blood, and lower from all menses matter and prevent again. Mr. J. E. Price, Martin Co., Ind., writes: "I have tried a box of Parmentier's Pills and find them the best medicine for Fever and Ague I have ever used."

Even if a man could read his own obituary it is not likely he would read it.

The children's disease, Scrofula often shows itself in early life and is characterized by swellings, abscesses, skin diseases, etc. Complication is common of the lungs. In this class of diseases Scott's Emulsion is unquestionably the most reliable medicine.

Corns cause intolerable pain. Holloway's Corn Cure removes the trouble. Try it and see what an amount of pain is saved.

Everything that goes out with the tide doesn't necessarily come back with it.

COUNTY OF HASTINGS

Treasurer's Sale of Land For Taxes

By virtue of a warrant under the hand of the Treasurer and the Seal of the Corporation of the County of Hastings, made under the Twenty-third of March, in the year of our Lord one thousand eight hundred and ninety-five, to sell the lands and tenements therein mentioned and described as being in the County of Hastings.

There are therefore to be sold, at public auction, the lands and tenements therein mentioned and described as being in the County of Hastings.

These are therefore to be sold, at public auction, the lands and tenements therein mentioned and described as being in the County of Hastings.

Wall Paper

THE designs of our spring wall papers are beautiful and the colorings exquisite. The effects they produce upon the wall have been studied with intelligent sympathy and the "long-felt wants" of a few years ago have been provided for with cultivated taste. A judicious employment of any of our papers will be found to be done in a room. A few ornaments, according to the taste or wealth of the occupant, are all that is necessary to contribute to its beauty and comfort. Our papers thoroughly represent the standard of the prevailing taste in interior decorations.

C. B. Scantlebury.
